EUROPEAN LETTERS.

DELAYED CORRESPONDENCE

Glasgow and Its Fine Monuments. Elegant Churches and Gres-

Stone Buildings Quaint Old Ep-fraphs and Inscriptions.

[The following letter from Capt. T. W. Patton, it will be seen, bears date July 19th. In fact it was the second letter written by him, yet, owing to some irwritten by him, yet, owing to some ir-regularity in transmission, is among the latest received. We publish it to keep few notes of the part most interesting to

Grasgow, July 19, 1889. Editor Citizen: Landing yesterday of Greenock, the tide not permitting our steamer to further ascead the fively Clyde, a fast train brought us in an hom

majority of the houses are constructed to stone, presenting less artisent effect in their architecture than it sense or dura-bility. The stone, for the most part, is or mine. The stone, I telle most part, no or a dull, dark gree rolor, but occasi mally varied by red sandstone; smallar in line to our jest larek. No effort, as a role, seems to have been usade to due the walls in courses at all regions, but the roughness with greatly to the sense. Extremelle.

mids greatly to the sense i strength. T'r lattam binds, i'r the most part, and every one exclaims at the large num and every medical upon such sman parties of half. It does indeed appear meredide that so truch can be had from soil apparently rough and sterile. The color of the bay, too, is remarked by us, it being of a light olive green, blendes with slight yellow, and giving proof. niving been cut in its most justy and su culent condition, instead of remaining to grow hard and worthless, as our armers too often allow it to do. The horses; ooo, give evidence of the excellent quality of food. They are fired in Ireland-We have never seen anything to compare with the big size of those used for heavy draft, and their linge act are a marvelin deed. The magnificent animal which brought our hoggage from the steamer the train has an understanding of which an elephant might be justly promi-With apparent case he drags up a steep incline, a tremend as pile of trimks, and they being discharged into the funny fit they being discharged into the funny fit they being discharged into the funny fit to the fit is the fit in the fit in the fit in the fit is the fit in the fit in the fit in the fit is the fit. one has dred yards to find sufficie. I space for him to turn about and return for an-

This slow and dignined procedure strikes us as very funny, showing that our Scotch friends, lace low estimate upon time. The detention to us Americans seem most exasperating. First the intelerable missance of cust an officers i-specting each article, as though ner majesty's dominion depended upon their guarding her from the impositions of few North Carolina teachers, and, who tew North Carolina teachers, and, weat this is accomplished, we are with equal deliberation takes upon a ting heat and carried ashore. So that at least two

subject, of universal remark. However century, often we have read a description of them, we never before realized their drollness, uncomme While acknowledging their comfort and speed, we would not at all change systems with them. Ours is to us for more convenient and desirable in all respects; of stone, which is not needed to keep his convenient and desirable in all respects; of stone, which is not needed to keep his memory reen.

As we leave the cathedral place our terprising Yank has so long refrained from establishing our plan of checking from establishing our plan of checking that we have 'estawed upon aur little morning, was brought to this city this care we have 'estawed upon aur little morning was brought to this city that the control of soldiers and the control of soldiers are control of soldiers.

have gone to visit Ayr, the part Burns home. We hope they may have an enjoy able time, but would not at this moment have missed when you have have missed what we have seen under The West Virginia Guberlintorial of immense grey stone houses, whether residence, shop, or hotel, give to the whole city an air of calm dignity, such as

we have nowhere experienced.

The few public buildings that our limited time allows us to see are of corresponding gravity. The city half is really nost impressive, of a Corinthian style of architecture, and of the eternal grey with walls and buttlements adorned plentifully with statuary chat, to our eyes, seem most excellent in deadorned with most admirable

First, of course, as in duty bound, we doff our hat before an e pestrian statue of her majesty, in which she is represented as sitting up it a superb horse with a degree of ease which she could only rave obtained in the prime of her woman-Opposite, the prince consort behis appearance keep pace with that of
